

Faculty / Lecturer in Biology at Brown University

Department of Molecular Microbiology and Immunology at Brown University, Providence, Rhode Island.

We are seeking applicants for a faculty position at the rank of Lecturer with expertise in Immunology and Microbiology and teaching experience. The Lecturer will teach Immunology, Microbiology and introductory and upper-level undergraduate Biology courses, based on their expertise and Program needs. In addition to teaching responsibilities, general duties include academic advising of first year and sophomore students, advising of concentrators in the Biological Sciences, and service associated with the undergraduate program. Successful candidates will hold a PhD in the Biological Sciences and have STEM teaching experience in higher education.

Brown University is committed to fostering a diverse and inclusive academic global community; as an EEO/AA employer, Brown considers qualified applicants for employment without regard to, and does not discriminate on the basis of, gender, race, color, national origin, sexual orientation, religion, protected veteran status, disability, or any other legally protected status. Review of applications will begin immediately and will continue until the position is filled or the search is closed.
