

**The University of Iowa
Department of Microbiology and Immunology**

**Assistant or Associate Professor in Microbial Immunology
Tenure-Track or Tenured Faculty Position**

The Department of Microbiology and Immunology in the Carver College of Medicine at The University of Iowa invites applications for a tenure-track or tenured faculty position in Microbial Immunology at the Assistant or Associate Professor level. This tenure-track or tenured position includes a 12-month appointment, fringe benefits, competitive start-up package, ample office/laboratory space and access to state-of-the-art core facilities, instrumentation, BSL3 and ABSL3 space. The primary appointment of the faculty member will be in the Department of Microbiology and Immunology. Successful applicants will be expected to establish and maintain an extramurally-funded research program and to actively participate in teaching and service missions within the Department and the Carver College of Medicine.

All applicants must have either a PhD, MD, MD/PhD, or DVM/PhD, postdoctoral research experience in immunology, and a strong record of research accomplishments that include publications in high-quality journals. Applicants at the Associate Professor level must have an established and funded research program and demonstrate the ability to mentor and teach PhD graduate students. All areas of Immunology will be considered. We are particularly interested in applicants using cutting-edge approaches to study Microbial Immunology with an emphasis on the mechanisms of innate and adaptive immune responses to microbial pathogens, host-pathogen interactions, translational and novel approaches to treatment of immune disorders related to microbial infections.

The Department of Microbiology and Immunology consists of 21 primary and 6 secondary faculty members with strengths in molecular mechanisms of bacterial, viral, and parasitic physiology and pathogenesis, immune responses to medically important pathogens and cellular biology. To learn more about the Department of Microbiology and Immunology, please visit <https://www.medicine.uiowa.edu/microbiology/>. The Department is especially interested in candidates who can contribute to the growing diversity and excellence of our academic and research communities through their teaching, scholarship, leadership and service.

To apply for this position, please visit <https://jobs.uiowa.edu/faculty/view/74081>, faculty requisition #74081, where you will be asked to submit a curriculum vitae, letter of interest, and a statement of research interests. Additionally, all candidates should have three letters of recommendation sent to Search Committee #74081, at microbiology-hr@uiowa.edu.

Review of applications will begin immediately and will continue until the position is filled. Anticipated start date is flexible. Questions about the position or the department should be directed to Search Committee #74081, at microbiology-hr@uiowa.edu.

The University of Iowa is an equal opportunity/affirmative action employer. All qualified applicants are encouraged to apply and will receive consideration for employment free from discrimination on the basis of race, creed, color, national origin, age, sex, pregnancy, sexual orientation, gender identity, genetic information, religion, associational preference, status as a qualified individual with a disability, or status as a protected veteran.

Persons with disabilities may contact University Human Resources/Faculty and Staff Disability Services, (319) 335-2660 or fsds@uiowa.edu, to inquire or discuss accommodation needs.

Prospective employees may review the University Campus Security Policy and the latest annual crime statistics by contacting the [Department of Public Safety](#) at 319/335-5022.
